ANNOUNCEMENT

PACKAGING UPDATE FOR TOPICAL MEDICATION

Nizoral®

To: Dear Valued Customers and Business Partners,

STADA Vietnam sincerely thanks our valued customers and partners for your continued trust and support of the Company's products.

Starting from batch QJB2600 (EXP: 24 October 2028), the topical medicinal product **NIZORAL® Cream** (Ketoconazole 2% w/w) will be introduced with updated packaging to align with the global brand identity and strengthen product recognition. Please note that the current packaging will continue to be circulated and distributed in parallel until existing inventory is fully depleted. This packaging update applies to the product appearance only and does not affect the product's quality, formulation, safety, or therapeutic efficacy. We kindly ask for the understanding and support of our valued partners and customers in communicating this update appropriately during the transition period. STADA Vietnam sincerely appreciates your cooperation and continued support.

Detailed information regarding the updated packaging is provided below:

Registration No: 540100991324 (unchanged)

Pack size: Box of 01 tube × 15 g cream (unchanged)

Former packaging design

New packaging design
